Product Description

HR[®] Lubricating Jelly is a sterile, water soluble and greaseless lubricant used by doctors and nurses during many medical procedures. Most lubricants hold one or two FDA registrations, HR Lubricating Jelly holds six making it the Universal Lubricant[™] preferred by doctors and nurses. Over the past 80 years, HR[®] has built a reputation around quality, with zero FDA recalls and a market history to back it up, you know quality is in every tube.

Applications: • OBGYN Procedures • Urological Procedures • Catheterization • Plastic Surgery
• Ultrasound Procedures • General Examinations • General Surgery • Laser Hair Removal
